To the parents of 9th-year VSB students

Ref: AC/lp

Lausanne, September 2010

Dear Madam, Dear Sir,

Compulsory school-attendance will soon be coming to an end for your daughter or son. Over the course of year 9, she or he will face important choices—choices that will affect her or his future.

To support you and your child in thinking about this and acting on your decisions, the Cantonal Office for Qualification and Career Advice offers various services:

The Service for Information, Advice and Aid in Choosing Careers and Study Programmes

Access to psychologist- careers advisors is available in the school that your child attends and at your regional Careers Centre. Over the course of the year, professional advisors will visit your child's class to talk about the services of the Cantonal Office for Qualification and Career Advice and remind students about what is at stake during this last year of school.

Individual interviews can be offered (by appointment) if your child is uncertain which programme of studies she or he should follow. In these interviews, your child can draw up a training plan and enjoy our support in implementing her or his plans and gathering information about trades and qualifications. You are of course very welcome to join your child at these interviews. As regards the choice of options at secondary school, the *maturity* programme, we offer students a **group consultation**.

Salon des métiers et de la formation

We are pleased to announce that the **Trades and Training Exhibition** (your invitation is enclosed) will be held at Lausanne, at the Palais de Beaulieu, from **4 to 9 October 2011**. During the visit organised by your school, students will have the opportunity to enrol for 'Careers-Info': lectures on various trades with companies and schools visits. We will organise these between November 2011 and January 2012.

Documentation on Studies and Professions

Your regional Centre for Information on Studies and Professions (CISP) will provide you with very comprehensive documentation, which you can consult on-site or borrow.

You will also find detailed information on our internet site: www.vd.ch/orientation

Though the Careers Office is here to help and support adolescents in working out their study and/or professional plans, we should emphasise that your role as parents—your guidance and supervision—is essential.

We are at your service—please do not hesitate to contact us for any further information.

Thanking for your attention,

Yours sincerely,

Centre Director

Psychologist-Advisor

Encl: Invitation to the 'Trades and Training Exhibition'. Brochure: *Post-obligatory education in the Canton of Vaud*.
