

# New coronavirus Covid-19

Instructions for pupils/students with suspected infection in order to prevent transmission to other people.

**OMC**  
Office du Médecin Cantonal

**HPCi** | hygiène, prévention et  
contrôle de l'infection

**Wear the mask given at the consultation until he/she get to his/her room.**

### Measures of prevention

- Remain alone in the room with the door closed. Meals have to be taken within the room.
- Avoid any visit or physical contact.
- Any person that needs to get into the room for at least 15 minutes must wear a mask. He/she must imperatively wash/disinfect his/her hands after leaving the room.
- Open the window for 5 minutes at least 3 times a day in order to ventilate the room.
- The pupil/student can leave the room only if necessary.
- Wear the mask given at the consultation for moving outside the room (for example: bathroom, toilets).
- Use a personal toiletries that will not be used by anyone else.
- He/she had to wash his/her hands regularly.
- The pupil/student must not go to school (including exams) nor participate to any scholar or extra-scholar activity.

### If clinical state worsens

- Go to the emergency room of the nearest hospital with a private car if possible or call an ambulance (call 144 to inform them that the patient has a « suspected infection with the new coronavirus»).
- Wear the mask from the personal room to the hospital room.

### Laboratory results

<b>positive Covid-19</b>	<ul style="list-style-type: none"><li>• Hospitalization organized by the doctor.</li><li>• Organize transportation in a private car.</li><li>• Wear the mask from the personal room to the hospital room.</li><li>• At hospital, register at the reception as “Covid-19 infected patient” and avoid the waiting room.</li><li>• Organize full disinfection of the pupil/student’s room.</li></ul>
<b>negative Covid-19</b>	<ul style="list-style-type: none"><li>• All the measures listed above are no longer necessary, the pupil/student can resume a usual social life.</li></ul>
