1. ECONOMIC PROMOTION OF THE CANTON OF VAUD

1.1 A PARTNER NETWORK AT YOUR SERVICE

The economic promotion group of the canton of Vaud is at the service of the business community for any creative project, company establishment, or business expansion.

Overall, Vaud’s economic promotion group aims to:

¬ provide initial information to people hoping to set up their own business,
¬ facilitate the establishment of foreign companies in the canton,
¬ provide information on local government procedures,
¬ guide companies in their search for sites and premises,
¬ direct business leaders to private and public funding agencies and advisory resources,
¬ provide financial support for start-ups, company establishment, and business expansion
¬ promote the image of the canton in business circles at home and abroad.

Economic promotion in the canton involves the following three players:

¬ Office for Economic Affairs (SPECo)
¬ Foreign Direct Investment Agency (DEV)
¬ Regional Economic Development Agencies

These organisations will put you in touch with a broad network of substantial partners who can provide you with targeted services appropriate to your company’s stage of development: raising capital, technology transfer, innovation, acquisition of land and buildings, consulting and coaching, exporting, and business internationalisation and promotion.

You will find the specific services offered by these partners in Chapters 2 through 6.
1. ECONOMIC PROMOTION OF THE CANTON OF VAUD

1.2 OFFICE FOR ECONOMIC AFFAIRS (SPECo)

The Office for Economic Affairs (SPECo) supports companies that are located in the canton of Vaud, especially those involved in the sectors of advanced technology and industry.

SPECo advises entrepreneurs from their startup phase through the internationalisation of their business. It guides business people through local and regional governmental processes and puts them in touch with organisations that are appropriate to their specific needs: consulting, financing, technology support, etc.

SPECo can also provide direct financial support to SMEs and start-ups in advanced technologies and industries that meet the support criteria of the Economic Development Act (art. 31-34 LADE).

1.3 FOREIGN DIRECT INVESTMENT AGENCY (DEV)

The Foreign Direct Investment Agency of the canton of Vaud (DEV) welcomes and assists at no charge foreign companies having an interest in establishing their business within the canton.

A one-stop shop, the DEV supports and accompanies foreign firms in all stages of their implementation, including referrals to government agencies, the sharing of experiences among similar projects, support for acquiring land and premises, assistance in filing applications for work permits, and contacts with potential local partners.

In its promotion of foreign investments, the DEV is the canton of Vaud’s antenna for the GREATER GENEVA BERNE area (GGBa), a network for the acquisition of companies in western Switzerland (the cantons of Berne, Fribourg, Vaud, Geneva, Neuchâtel, and Valais). www.ggba-switzerland.ch
1.4 REGIONAL ECONOMIC DEVELOPMENT AGENCIES

Regional Economic Development Agencies are local host platforms that help companies set up, settle, and thrive in the region. The agencies are made up of private members and public agencies that provide most of the financing.

These local organisations provide guidance, information services, advice and support in the areas of economic promotion, enterprise creation, and business development.

They support entrepreneurs in their dealings with cantonal and municipal government agencies, orienting them toward the organisations best suited to respond to their specific business needs. They create regional development strategies and manage a database of commercial land and premises in their territory.

1.5 NETWORKING EVENTS

**SME and start-up breakfasts** are organised eight to ten times a year by the Office for Economic Affairs (SPECo) in conjunction with its partners of the Vaud economic promotion network.

Their objectives are to:

- presenting topics of direct interest to SMEs and business start-ups (training, advice, and content provision)
- offering testimonials from companies with experience in the topic at hand
- providing SMEs and start-ups the opportunity to ask questions to experts in their fields and to share their experiences
- facilitating networking and discussion between entrepreneurs in the region

Please check the calendar and details of upcoming meetings on: [www.petitdejeuners-vaud.ch](http://www.petitdejeuners-vaud.ch)

SPECo regularly supports other business development events related to a variety of general and specialised topics. Please see the full agenda at: [www.vaud.ch/en/events/](http://www.vaud.ch/en/events/)
